

ESPRINET JOINS THE INTERMONTE VALORE ITALIA INDEX

Vimercate (Monza Brianza), 02 July 2026 – Esprinet Group, leader in Southern Europe in the distribution of high-tech products and the provision of applications and services for digital transformation and the green transition, is proud to announce that it has been selected as one of the 100 companies listed on the Borsa Italiana that make up the **Intermonte Valore Italia Index**, which is dedicated to SMEs with a market capitalization of less than one billion euros that are not included in the FTSE MIB.

The Index was created with the aim of highlighting the universe of listed Italian small and medium-sized enterprises, serving as a meeting point between entrepreneurship, the capital markets, and the national economy. It offers a true snapshot of the best expertise in the Italian economy, helping to broaden and diversify investment opportunities compared to traditional indices for both domestic and international investors.

Companies are selected according to rigorous technical and financial criteria designed to ensure adequate levels of liquidity, transparency, and investment suitability, including: minimum free float, strong governance standards, analyst coverage, financial sustainability, and debt levels, as well as their representativeness within the Index itself.

The Index is part of PMI2Change, Banca Generali's innovative project unveiled on July 1, 2026, at Borsa Italiana's Palazzo Mezzanotte, which aims to support the growth and competitiveness of Italian entrepreneurs by fostering the development of publicly traded Italian SMEs. The project addresses the issue of limited liquidity and market valuation of publicly traded SMEs, helping to create the best conditions for a more efficient match between capital and businesses.

The initiative builds on the expertise of Intermonte, a leading Italian player in the sector with over thirty years of experience in the financial markets—particularly in SME research, sales & trading, market making, and investment banking—which has been an integral part of the Banca Generali Group since early 2025.

Based on the Index, Banca Generali, together with Investlinx and Intermonte, has launched a new actively managed, PIR-compliant ETF that will invest primarily in the universe defined by the Index itself. Banca Generali has committed to supporting the launch of the instrument with an initial inflow of 100 million euros in the first few months, with a gradual increase in exposure to reach 500 million euros in the medium term. It is therefore estimated that the initiative could help generate new investment inflows of 1–2 million euros per day, representing more than 5% of the Index's free float.

Esprinet Group, a leader in southern Europe in the distribution of high-tech products and in the provision of applications and services for digital transformation and green transition, is a group of companies acting under the direction of the holding company Esprinet S.p.A. With over 1,800 employees and a turnover of Euro 4.3 billion in 2025, the Group companies operate through three main brands: Esprinet, V-Valley and Zeliotech. Since 2025, the Group has also been present in the Benelux and Ireland, as well as in Italy, Spain, Portugal and Morocco.
The parent company (PRT:IM - ISIN IT0003850929) is listed on the Italian Stock Exchange in the Euronext STAR Milan segment and participates in UN Global Compact, adhering to its approach based on the principles of responsible business.
